Tuberous Begonias
Giant Camellia Double Type

TUBEROUS BEGONIAS

This strain of California Begonias we believe to be the finest available. The strong tubers produce huge, magnificent flowers of perfect form carried erect on strong stems. Their requirements are comparatively simple. If the soil is heavy or hard, add plenty of leaf mold, peat moss or sand, or a mixture of all, so that the ground will be light and porous. Mix in a sprinkling of bone meal. Plant in a shaded spot, as in tree shade or on the north side of the house, and keep well watered (fine overhead sprinkling preferred). To prevent loss of bulbs when planted early or in cold or wet ground, start in peat in flats indoors in February or early spring; set 3 inches apart, slightly covered. Keep slightly moist in warm, well-lighted place until 3 or 4 inches of growth develop, then plant in pots or in the garden as desired.

GIANT CAMELLIA DOUBLE—Large, full double flowers of exquisite form. In separate colors of rose, white, apricot, scarlet, yellow, salmon, orange pink and mixed.

Northwest Grown Narcissi for Your Spring Garden

Malmo's Select Narcissi and Daffodils are all grown in our own Pacific Northwest—the source of the best stock, which is eagerly sought by florists as well as home gardeners. These bulbs from our growing fields are top size, fresh, plump bulbs, that will give the largest and most blooms in your garden. Narcissi should be planted freely in groups to provide a magnificent display in early spring. The exquisite coloring and graceful form of the beautifully shaped trumpets and cups, on long straight stems, have made them favorites for early color in the garden or as cut flowers.

YELLOW TRUMPET DAFFODILS

AEROLITE—16 inches. Huge deep primrose yellow perianth with clear yellow trumpet, beautifully proportioned, of excellent form and grace. Splendid keeper in the garden or for cutting. 3 for 55c; 12 for \$2.00.

FOR SUCCESSFUL POT CULTURE USE MALMO BULB FIBRE

Plant Narcissus, Hyacinths, Crocus, Muscari, Tulips, Begonias, etc., in MALMO BULB FIBRE for color indoors. Moisten the bulb fibre overnight before planting and keep it moist thereafter.

Bulbs should be placed in a dark, cool place until growth appears, then place where desired in the light away from direct sun rays and electric lights.

Bulb fibre should only be used in pots with no drainage as it contains all the necessary plant food with elements for soil conditioning.

GIANT-FLOWERING TULIPS (Darwin, Cottage and Breeder)

This classification contains the groups formerly classified as DARWIN, COTTAGE and BREEDER. As there has been extensive interbreeding of these three classes, confusion has existed even among the best informed, and it seems to us useless to maintain class distinction any longer. In revising our 1948 list, we have eliminated many varieties and are listing newer varieties. Their flowers are larger, stems longer and better, and the colors more striking and outstanding.

ADMIRAL TROMP — 32-inch. Breeder. Glorious salmon-orange with rosy flush; of elegant form on strong stems. **3 for 45c; 12 for \$1.75.**

ADVANCE—32-inch. Cottage. One of the finest of the newer sorts with larger flowers, longer and better stems. The large flowers are fiery scarlet with flush of rosy orange. **3 for 45c; 12 for \$1.50.**

MALMO PEONIES

Peonies are of easy culture and may be planted in the spring or early fall. The plants thrive best in loose, rich soil and should be kept well fertilized. Cover the buds but an inch or two over the eyes. They do well in our climate and their lavish bloom provides excellent cut flowers as well as making a very colorful garden display.

The numbers shown indicate ratings given by the American Peony Society. Ten is the highest possible score and this list contains the best varieties only.
